#### Sun City Gradually Reopens

dents to use. Golf is going well, with our residents using the courses especially in the early mornings. The groups that I golf with have been starting at 7:00 or 7:30 in the morning. I see almost as many walkers out at that time as I did six weeks ago, when taking my early morning walks. I am so happy to see the tennis courts in use, as well as the pickle ball courts. As hot as I feel while I am golfing, it's hard to believe that others don't feel the same. Furthermore, the word "HYDRATE" comes to mind. We should all have extra water or fluids when taking part in any outdoor activity. By now the pools, fitness centers, and craft rooms will have been open for six weeks. By all accounts, our residents have been great. They have followed social distancing guidelines and worn their masks. Due to the care and cooperation of our residents, there have been minimal amount of issues. It is the Board and our staff's sincere hope that we will be able to continue opening up the remainder of our facilities sooner as opposed to later. We must and will follow the Governor's directives, but we will be as creative as possible in getting all facilities open and ready for use by the residents.

On behalf of the Board, I want to acknowledge and thank Security Patrol, our volunteers, and Sunshine for reopening and once again providing the much needed and appreciated services to our community. Remember all of these volunteers are your friends and neighbors. They are all volunteering their time and energy to make Sun City a better place to live for all of us. Each of these organizations would love for you to reach out and sign up as a volunteer as well. Neighborhood Preparedness (an outgrowth of neighborhood watch), would also like to welcome new volunteers. Information regarding all of these community organizations are in this issue of the Link. Head to the Club and Community Organization page and look up the

phone number for each group. Now would be a wonderful time to volun-

teer, as all of the groups are seeking new members following the Covid-19 interruption of services. As we move forward and on behalf of the Board, I would once again ask that the residents be patient with our staff and especially our monitors. The monitors are your neighbors and they are just trying to implement the safety precau-

tions and "rules" that the Board and the Administration have imposed, to better protect everyone. As I said earlier, the

imposed, to better protect everyone. As I said earlier, the vast majority of residents have been great and have been considerate to each other and staff. For those very few of you that don't want to follow the rules that are designed to protect everyone, shame on you. Let's all enjoy this summer as our lives begin to return to the new normal.

### THANK YOU FOR YOUR SERVICE

#### **AIR FORCE VET & WIFE CELEBRATE 70TH WEDDING ANNIVERSARY**

t is a significant milestone, one of which few of us ever obtain. It generally is a cause for a big celebration—a grand party! Nevertheless, this is 2020 and the COVID-19 rules are in place. So, the celebration will be more limited as friends and family drop by E.T. and Vera Row's Sun City home as they mark their 70th wedding anniversary this month.

Of course, the story didn't start in Las Vegas. E.T. was an Oklahoma boy, born in 1928 and raised in the farm and ranch country that surrounds Broken Bow, in the corner of Oklahoma that borders Arkansas and Texas. He completed his education at Wright City High School in 1947 and he was faced with the eternal question of, "What now?" E.T. may have just missed service in WWII, and we may have been at peace, but America still had the draft. "I thought about it and decided that if I was going to serve, I didn't want to do it in the Army. Better four years in the Air Force than two in the Army, so in October 1948 I enlisted. Of course, I didn't know that the Korean War was coming and that four year enlisted was stretched to five," said E.T. The decision to join the Air Force rather than the Army would prove to be a significant first step to their 70-year journey together.

Vera was born in Nebraska and her family moved to Cheyenne, Wyoming, in 1939. While still in high school, she worked part time as a cashier in a local drug store. Meanwhile, the Air Force stationed E.T. at Warren AFB located just three miles from Cheyenne. One Friday evening, a young Airman 2/C Row walked up to the register to pay for his purchases and saw Vera - and that one look was all it took for him. "Every Friday evening after that, I would go to the drug store mainly to see if I could get her name and home phone number. I would buy something, anything just so I could talk to her but, honestly, she just didn't seem interested. On a quiet night, she would be reading a book between customers and when I paid my bill, she'd turn around and went back to reading her book. My Air Force buddies kept asking why I didn't give up and move on," recalled E.T. Sometimes being persistent will get you in trouble, other times it will get you a date. "The very next time I came by, she surprised me by saying 'Ok Row, I get off at 7. Where are we going—some dull movie?' Well, we were too young to drink, and to keep it respectable I made it a double date by inviting my sister and her boyfriend to join us. We all went dancing at the Little Bear Inn some 20 miles from Cheyenne. To shorten the story, 3 months later, on July 31, 1950, we were married in Greeley, Colorado." However, E.T. was still in the Air Force and his fate was not his own.

The newlyweds were assigned to Kirkland AFB outside of Albuquerque, New Mexico, but that wasn't to last. The Korean War was raging, enlistments were frozen, and the Air Force needed

According to the Air Mobility Command Museum, "Within the combat area, Combat Cargo Command, under the control of the Far East Air Force (FEAF) flew 210,343 sorties with an average of 210 aircraft, carried 391,763 tons of cargo and 2.6 million passengers, and airdropped 15,000 tons of supplies and equipment."

After the war, E.T. was assigned to Robbins AFB near Macon, Georgia. By this time, his enlistment was up and with five years invested, the couple decided to stay in the Air Force. Then began the usual rotation of assignments and bases. After Robbins, came a special assignment in Washington D.C., but this was terminated when E.T. was diagnosed with tuberculosis, probably picked up while serving in Asia. That meant a stay at Fitzsimons General Hospital near Denver. Once released, E.T. was assigned to Nellis AFB for a three-year tour. Following that, E.T. and family (they had two sons by then) went to Torrejon AFB outside of Madrid, Spain, before returning to Nellis. Their stay in Madrid provided their sons with the opportunity to learn Spanish, a skill they still use today.

Along the way, E.T. was sent to Jet Engine Mechanics School in Wichita Falls, Texas. During his first assignment, the post doctor forbid him from working on the flight line on the grounds that the fumes would injure his TB weakened lungs. At that point, he was assigned to personnel. In November 1968, with his 20-year mark achieved, E.T. retired from the Air Force with the rank of Master Sergeant and began working for TWA as ground crew. Later, he landed a job as Security Inspector at Tonopah Air Force Station where he stayed for the next eight years until his final retirement from a paid position in 2004.

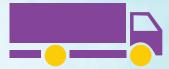

In that year, the Row's moved to Sun

City and E.T. went back to work, this time serving in the Security Patrol for 9 years and at the Lake Mead Information Center for 5 before finally 'retiring' in 2018.

Their two sons, of which they are so justifiably proud, are both medical professionals with one, Jim an ER Doctor in San Antonio, Texas, and the other, Darrell, a Heart Specialist in Phoenix, Arizona.

people in-theater to support the war. E.T. was fortunate; his home base was Tachikawa air base near Tokyo. Being stationed in Tokyo meant that he could bring Vera and their son Jim with him. But that didn't mean that E.T. was going to spend his time touring Japan. The Korean War Air Lift was on and E.T. was part of it as a member of the ground crew servicing the C-47s on a daily basis as they supplied the needs of our troops fighting in Korea.

### MEET YOUR NEW NEIGHBORS

#### SUSAN MITCHELL

Hello my name is Susan Mitchell, I moved to Sun City Summerlin at the beginning of January. I am from Stockton, California, right in the Central Valley. My husband of 41 years passed away in the fall and I moved here to be closer to one of my daughters who lives in Summerlin.

I am a recently retired teacher, I taught 5th grade and I loved it. I have two daughters, and four grandsons.

I enjoy quilting although it's a new hobby for me. I enjoy traveling, and plan to do more as soon as it's possible. I miss the dance classes and can't wait to swim. I plan to try many more of the clubs and activities as soon as they are open.

I have met many wonderful people since I've been here. Everyone is so welcoming and kind, I'm glad to be here.

#### TERI AND CHET KOEHLER

We are very excited to become residents of Sun City Summerlin and so look forward to enjoying all that it has to offer. We purchased our new home here the end of April. We have both lived in Las Vegas for many years, Teri being here since 1962

and Chet since 1978. We met our senior year of High School, raised our children here in Las Vegas and own a business here, so making the transition to Sun City Summerlin was an easy choice for us. Teri's mother has been living in the community since it was originally built so we have watched all of the wonderful activities she has been involved in and all the wonderful neighbors and friends she has meet, so it was a natural move for us once we decided to downsize and take life a little easier.

We both hope to take golf up again and do more outside activities. The tennis courts and pickleball courts are also something we look forward to enjoying. We have one dog, a miniature schnauzer named Rona, who is learning to enjoy her outside walks. If you see us out walking, we can't wait to say hello to everyone.

#### **JOANN DUNCAN**

Hi I'm JoAnn Duncan, and I moved into the community around March 14th

Right after, as you know the country shutdown. I was not able to checkout any activities, so I have been quite isolated.

My move to Sun City came after 6 years of living in other areas of Las Vegas. The original move here was from LaQuinta, California. I am originally from Toledo, Ohio. My two son's and grandchildren are all still in Ohio.

I am retired from the medical field of Radiology, and I trained in medical equipment for 17 years. I am now a Certified Pilates Instructor and hope to get back to teaching soon.

I hope to get involved in the health club, arts and crafts club and golfing.

#### MIKE AND BARB FICHMAN

We are Mike and Barb Fichman and we are from Santa Clarita. California. We moved to SCS on March 28th. We have been coming to Vegas for over thirty years and even got married here 25 years ago this September. We came for a tour several years ago with the SCS ambassador golf group and fell in love with the community. Mike has a work background in security and my background is corporate finance. We enjoy the Vegas casinos and Mike plays the WSOP poker tournament at the Rio each year. We have two kids, five grandkids and one great granddaughter. We are looking forward to SCS opening up so we can enjoy the pools, gym, clubs and many activities.

#### **BOB AND PAM DOWNEY**

We bought our house at end of December. Did some updating and moved into it in March. We bought in Sun City because of the community. We both golf and enjoy getting out and walking. Walking in Sun City is nice, because the traffic is very light.

We have lived in Las Vegas 57 years. We have been married 52 years. We only moved 10 minutes away from our last residence.

Bob was a contractor and built custom homes. I was a stayat-home mom of three children and those three children gave us eight grandchildren. I worked various jobs until a few years ago. One of the hardest was a Clark County School bus driver.

We plan on using the fitness centers, swimming pools. Bob is looking forward to using the facility that has the power tools for building things. I would like to join some fitness classes and maybe learn to play some new games.

#### I.IN DUGENT

Hi new neighbors! I moved to SCS March 11 from Sun City McDonald Ranch, just days before total quarantine. I am originally from Virginia. I am single, and I live near my daughter (a high school teacher), her husband and my grand daughter.

I am a retired CCSD teacher. I have six siblings and my mom, and a huge family back in Virginia, whom I try to get to visit with a couple times a year. I love to exercise and walk. I enjoy being and staying active. I would love to meet some new friends in my new neighborhood. I love to entertain, enjoy good company, love to laugh, happy hours, dancing, and spontaneity. I love to travel, both long and short distance trips. I cannot wait to join The Boomer Social Club, resume pickleball, workout in our gyms, pilates, zumba, and volunteer. I love to watch NFL and college football, and many other sports. I am very impressed with the amount of available and variety of activities that SCS has to offer. So looking forward to meeting you!

SUN CITY ROCKS!

he Social Rocks project began as an idea from member Debbie Valdez. Soon after the stay-at-home orders were enacted; she began painting rocks as a way to take her mind off the daily pandemic news cycle. She, and (founding member) Lynda Carpenter, have been keeping us entertained with their beautiful creations; though I believe there are a lot of residents who've joined in the fun and begun painting rocks and placing them in public thoroughfares too. An "official" Social Rock will have our logo and instructions as to where to send pictures which are then posted to our Facebook page or on our website.

Paining hiding, finding and re-positioning the Social Rocks, is a way to keep in touch with our members and generate interest in our SCS Social club.We really just want to brighten someone's day, promote neighborhood involvement and spread kindness.

Here are a sample of the Social Rocks placed throughout our community. We've placed kind words, Social Club group logos, black cats, and summer vibes. We're currently busy painting rocks for Flag Day and 4th of July. Hope you find yourself a Social Rock happy rock hunting!

hartered in the early 1990's the Sewing Club is one of the first clubs that was formed in Sun City. The club caters to those who love to socialize and sew. With just under 50 active members many do projects at the club's "sewing room" located in Mountain Shadows while others work on individual projects in their homes.

With COVID-19 being the topic of the day, many members are currently making masks to prevent the spread of the virus, but their community service activities range from making dresses for children at Shade Tree, a shelter for victims of domestic violence and pillow cases, quilts and placemats for that are donated to The Salvation Army for destitute Veterans.

Club members also work on many crafts including steering wheel covers, hand bags, scarfs and other items that they sell at their semi-annual craft fairs with the proceeds going to buy fabric and thread for the items they sew and share with those in need. The club will gratefully accept donations of any sewing materials that Sun City residents no longer use.

The club does both sew by hand projects and also has sewing machines that are free for all club members to use. Visitors are welcome to make donations, to socialize, buy masks or other craft items at their Mountain Shadows club room on Wednesday or Thursday mornings from 9 a.m. – 12 Noon. Annual dues are \$20.

#### **Open for Fitness**

have to start by thanking SO many of you for your kind words and support as we re-opened our fitness facilities and brought back other fitness classes and activities. It has not been perfect, for sure. We experienced some "bumps"

along the way as we got acclimated to the new reservation system, safety protocols,

and the changes that come with Governor Sisolak's phased re-opening plan, "Roadmap to Recovery for Nevada". Change can be difficult and we are certainly operating in new ways in all

aspects of our lives. On behalf of the Health & Fitness Department, I want to express my gratitude to you for your support of the Fitness Monitors and staff as we work to provide you with access to the information, activities, and facilities you need to stay healthy.

Pam Shields, SCSCAI Health & Fitness Director

It is July and summer is already in full swing! Our fitness facilities are open again, fitness classes have resumed and we're trying to get back to our normal exercise routines and healthier eating habits. The summer heat in our region adds some extra challenges when it comes to exercising, eating, and drinking. Our dry climate sucks moisture from our bodies, so drinking more water is necessary. It is too hot for cooking heavy, calorie-laden meals. Time to switch to lighter, healthier options like fruits and vegetables. Nature helps us with this by making available so many additional varieties during this time of year. Lastly, if you are physically active you must take care to wear sunscreen whenever you are outside, make sure you drink plenty of water, and wear light clothing that allows your skin to breathe. Even break up your workout into shorter workouts that can be done during the cooler portions of the day. Our articles this month are focused on the importance and benefits of one of our most underappreciated resources - WATER. Get out there and enjoy the exercise and BE SAFE!

#### Water, Water, Water

ur bodies are 60% water and our blood is 90 percent water, so it is easy to understand why the water is so important to the body. Most of us are unaware of how much water we are drinking and are probably not drinking enough.

#### How Much Water Should I Drink?

The answer used to be "eight 8-ounce glasses of water per day". While this is still a good answer and a good guideline, we now know that there are other factors to take into consideration.

Your water requirements will differ depending on your weight, level of activity, and the climate in which you live.

We should be drinking anywhere from 1/2 oz. to 1 oz. of water per pound of your body weight. For example, if you weigh 160 pounds, your range would be from 80 - 160 oz. per day. If you are mostly sedentary and live in a cooler climate, your requirements will be on the lower end of the range. If you are physically active and live in a dry climate, your requirements will be at the higher end of the range.

#### When Should I Drink Water?

While you want to make sure you drink an adequate amount of water, drinking 6-8 glasses in a sitting is not the best way to do it.

When you wake up, unless you have been drinking water throughout the night, you are dehydrated. Have a full glass of water on your nightstand and drink it when you wake up. You will be amazed at how it helps "wake up" your body. It gets your system lubricated for the day. Drink a glass of water with each meal and between meals. If you exercise, drink water before, during, and after exercise.

#### What Types of "Water" Are Best?

Plain water is the ultimate hydrating liquid. It has no calories or fat. Your body can use all of it. There are no flavorings, colorings, etc. The market is flooded with different types of "water", all targeted at making drinking water a more pleasant or healthy

- ◆ Watermelon
- Cucumbers
- Berries
- Radishes

- Spinach
- Green peppers

We get about 20% of our water

- ◆ Cauliflower
- Celery

#### **Drinking Water for Your Health**

Given that our bodies rely so heavily on water, the health benefits are numerous.

- Consumed with a meal, it helps with the digestion process.
- It helps with kidney function and reduces the risk of kidney stones and other kidney problems.
- It helps regulate your body temperature, helps eliminate toxins in the body, lubricates your joints, and makes your skin look younger.
- It helps get much needed oxygen to other parts of the body, including the brain. Even slight dehydration can impair your brain function, impacting mood, memory, and brain function.
- It flushes waste and toxins from your body.

#### **Drinking Water for Your Workout**

If you are physically active, it is important to drink extra water. If you are exercising for an hour or longer, you might consider drinking a sports drink, which can help add minerals in your blood (electrolytes) that you lose when you sweat.

#### **Drinking Water for Weight Loss**

Drinking water can aid in your weight loss efforts but should be done in addition to healthy eating and physical activity.

Dehydration can cause your metabolism to slow down, which means you are burning fewer calories throughout your day. If you already drink plenty of water, drinking more will not make much of a difference in our weigh loss efforts. If you do not get adequate amounts of water, drinking more will probably help.

We ALL need water to survive and to thrive. Now DRINK UP!

### Healthy and fitness

#### Dip Into Better Health: Benefits of Water Exercise

Water Therapy

Dating back to as early as 2400 BC, immersion in water was used as a method of healing. Throughout certain regions of the world, it was believed that water had curative powers, using it to treat arthritic joints and other conditions. Overtime, the use of water therapy would come and go, but by the 20th century time in water became both therapeutic and exercise.

#### **Water Exercise**

During the 1950's television fitness professional Jack LaLane, organized the first form of water aerobics. He promoted a healthy diet, along with an emphasis on aerobic exercise. By the 1970's and 1980's, water aerobics classes began to increase in popularity. The low-impact aerobic exercise water program, became the choice for rehabbing athletes recovering from surgery and older adults.

#### **Water Aerobics**

Classes are designed to help raise your heart rate, build muscle mass, and improve range of motion without adding any undue stress to the muscles and joints. The water provides resistance for a cardiovascular and strength workout.

#### **Benefits of Aquatic Exercise**

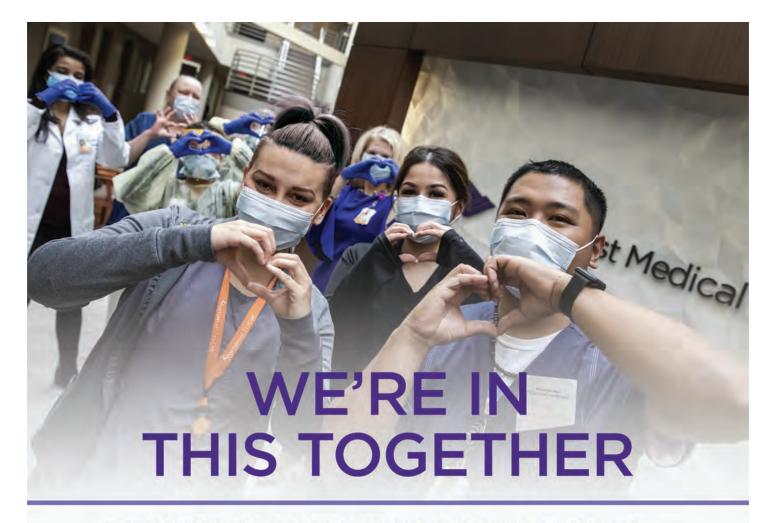

The water allows you to exercise at greater intensity without risk of falls or injury. Our 101-year-old resident, Frank Peeters says, "The pool keeps me alive!" Jill Robinson, President of the Aquacize club says, "Aquacize is a great way to exercise in the in the water. Water takes the stress off all your joints. It helps you get stronger while cushioning your body in the water. We do jumping jacks, lunges and also run in place! There are also many different workouts for the upper body. The water makes everything feel better."

#### A Fourth of July Birthday

Sun City Summerlin resident, Alfred Allen, is lucky enough to share his birthday with that of our nation. Each birthday during his childhood, his father orchestrated a cookout with extended family. The outdoor celebration always ended with fireworks. Though his father has passed away, Alfred's sister continues the family cook-out birthday celebration for him. As for fireworks this year, Alfred is hoping he will see the traditional display from near-by Red Rock Casino and the usual show presented by Strip properties. We wish Alfred a happy and memorable birthday as we all celebrate the Fourth this year.

#### **Curly Ray Staples**

Curly will be 8 years old July 4, 2020. He enjoys his walks, getting treats from his favorite neighbors Mona & Clem, and playing ball indoors! He is such a joy & of course, our baby.

### Community

#### It's Summertime!

#### **Some Tips From Community Standards**

#### General Maintenance

- ◆ How do your awnings look? Can they use some cleaning, repair or replacement? Maybe you just want to change to a new color. The approved color chart is available at the Community Standards office.
- Don't forget about your windows and screens.
- ◆ How about your mailbox post? It should be either black or white (depending on where you reside). If it is faded, rusted or any other color, it needs attention.
- ◆ Take a look at your wrought iron fencing. If it is faded or rusted, it should be repainted.

#### Landscaping Tips

- ◆ Treating your lawn with a pre-emergent won't eliminate all weeds from your property, but it will surely reduce them. If you live on a corner lot that is separated from the street by a wall, remember, YOU are responsible for the strip of landscaping in between.
- Are your trees encroaching into your neighbor's property or over a sidewalk? If so, be a good neighbor and trim the limbs back. If the limbs are encroaching over a sidewalk, City of Las Vegas Code Enforcement will contact you if you do not. The

City's requirement is that the limbs must be higher than eight (8) feet from the sidewalk.

- How about those palm trees? Dead fronds should be removed.
- Don't forget to clean up those pine needles and pine cones that collect on your property. They seem to have a way of migrating uninvited to your neighbors' property as well.

#### **Community Pets**

- Responsible pet ownership includes ensuring that your family pet does not bother your neighbors.
- Incessant barking can be considered a nuisance. It seems that some people are oblivious to repetitious barking while others are annoyed by a woof or two. If your dog is left unattended outside and begins to bark, please bring it back inside so as not to disturb the neighboring residents.
- Residents who walk their dogs must keep them leashed at all times. Even if you feel you have the best trained dog, you can't be sure how they might react in every situation. That's the law!
- Residents are also reminded that they are responsible to pick up after their pets, no matter where they leave their deposits. That's the law too!

#### Moving or Estate Sales

• If you are moving or have had a death in the household, one two-day sale is permitted. A Sale Permit must be obtained from the Community Standards office and displayed on the residence on the day(s) of the sale.

#### There's a Day For That

It was wonderful to open the Community Center doors at 8:00 a.m. on Friday, May 29th and welcome back so many happy and familiar faces. The re-opening of the Community Centers brought back a feeling of normalcy to our daily lives. We want to thank each and every resident for helping make our re-opening wonderful and seamless. From following the floor signs to aid in social distancing practices, to wearing your required facemasks in all Community Centers. Sun City residents were committed in helping keep Sun City Summerlin active and healthy.

Clubs who met during our shutdown took advantage of Zoom to conduct their meetings and stay in contact with all of their members. This practice worked out so well for the Clubs, a few of them are going to continue to use Zoom on occasion going forward. Even though Clubs meet less during the summer, Zoom would be a great way to stay in touch with your Club members who are away.

July 4th is the ultimate outdoor celebration. However, did you know July is also National Picnic month? This is a great time to get together and enjoy the wonderful Las Vegas evenings with a picnic. July is full of daily "holidays". Below are a few you can celebrate at your next picnic.

### By Alan G. Spector — "Seems to Me . . . " A Time for Patriotism and Positivity

ow! I sure was surprised that the LINK published my submission in request to "What SCSMC Residents are doing during Coronavirus days." I was even more blown away by the wonderful and positive reactions I received from so many in our community. It seems the idea of finding the positives this crisis presents, and having gratitude for all the people around us has really touched off a positive nerve. Thanks to all of you who took the time to let me know your appreciation by saying "Amen!" Seems there are A LOT of positive thinkers in SCS!! I mean, A LOT!

Which started me thinking. Although they are a distinct minority, there are a few people around us who seem to love "snipping", being disrespectful, and at times being just rude, mean-spirited, or insulting. I am not talking about honest disagreements, advocating for a legitimate position, or exercising democratic processes for change (that is good for our society and our community). I have just become so tired of those loud few who are insulting, incorrect, crude, vulgar or nasty, and those who enable them by encouraging them or dismissing their behaviors as merely "snarky." Some even publish "false and misleading" statements on social media for all to read. In addition to being inappropriate and incorrect, it certainly is not good for our public perception or home values. Since focusing on these negative behaviors seems to expand the space they occupy in our heads, I am thinking it is better to "light candles" of positivity. However, I believe the vast, hugest majority here in Sun City are positive thinkers and doers.

I was amazed when I was flooded with emails and phone calls from folks, who were upset when they learned that some had been rude, mean or disrespectful to SCS staff and board. Those upset were not averse to honest disagreements, but were sending in messages of support to SCS with feelings of gratitude. I never got so many complaints over something I did not do. They wanted me to organize positive responses of support. Frankly, not a day goes by that some SCS friends do not tell me how grateful they are for SCS. I think we all can agree that we live in an amazing community and enjoy an incredible lifestyle here. The vast, majority share belief and appreciation of the staff and volunteers that make Sun City so great. Human nature shows us that most people are only motivated to communicate when something is wrong. As opposed to, reaching out when everything is well. To me, that feels like taking things for granted.

I am thinking we could break out our "positivity" here. We could call it "SCS Spirit." We could be honest, fair, constructive, and respectful; consistently work to improve our community and ourselves. Focus on the wonderful aspects of living in Sun City Summerlin, and the wonderful friends and neighbors we have here. In my opinion and the opinions of so many SCS homeowners, there is no better place to live. We could remember that it is patriotic to exercise our democratic processes. It is also patriotic to be true to our values of fairness, generosity and friendliness. It is patriotic to work for the betterment of the group, to honor and care for others around us. It is only a "civil discourse" when it is "civil."

So, I want to focus on the positives. Just look around you, you will see great things everywhere. Beautiful flowers, people waving and smiling at strangers, people helping neighbors, talented musicians giving outdoor concerts on their driveway, and yes... even people stopping at stop signs (slight exaggeration!).

#### GRATITUDE DEPARTMENT – from SCS Spirit, SPECIAL THANK YOU'S TO:

**Doug Wong, SCSCAI Director of IT** – Communication is especially vital these days and that means technology (email, Zoom, etc.). Thanks Doug for always being there when SCS needs you 24/7 and helping us all stay connected when we need it most. We really appreciate your helpful talents.

**Stacie Coppens, LINK Magazine** – We all love our LINK, and we thank Stacie for stepping in on a minute's notice, when the managing editor had to go on medical leave. Stacie made sure schedules were maintained and residents were not disappointed. Her creativity and dedication really brighten our days.

**Nancy Cota, SCSCAI Business Office** – Thanks Nancy for doing an amazing job turning our collections department into a reminder department. Helping homeowners stay current and

Lets be grateful, count our blessings, and allow the light to drown out the darkness. For example, have you noticed the wonderful painted rocks with positive words that members of The Social Club and others have placed along the walkways in Sun City Summerlin? I don't know who has done this generous act, but it brightens my day each time I go for a walk (even my dogs stop to look at them. They never desecrate them with "souvenirs"!). What a generous hearted gesture by some thought-

ful artists and caring people.

Especially these days when we rely on the mail even more than ever. The folks on my street (the world famous Gerald Court), posted 'thank you' signs on our mailboxes to remind our postal carriers of how much we appreciate them. They have told us how much this small recognition means to them. Maybe you will want to show your gratitude for your postal carriers too. If you would like one of these signs, please email me at SCSspirit@gmail.com

I know SCS residents who bring fun things to those less mobile. They deliver food to the needy and collect clothing

for the poor. Additionally, the SCS Men's Club donated iPads for online learning, to local public school children who cannot afford to get one during this tough time. Others have been watching out for their neighbors who require extra attention and care, whilst some are simply helping others cope through this difficult period.

Think of the amazing volunteers who work as part of Security Patrol. They keep us safe and are there for us when we need them (day or night).

Think of the Sunshine Services Club volunteers, who work hard to lend or fix things when need it, or provide us with transportation.

Think of those who lead us on fabulous hikes, or show us how to enjoy crafts like fused glass, sewing, ceramics and model trains.

Think of those who fix our computers, or teach us how to use new technology (so we can keep up with our 8-year-old grandchildren!). Think of all the hundreds of neighbors who make time

to help others. To help us!

Sun City Summerlin is the best place to live. We all know it. How about we blow past those few "negs" and speak out in appreciation, gratitude, and mutual caring. So, show some "SCS Spirit!" Don't be quiet, allow your voices to join the many others, because Sun City Summerlin has the Spirit! – lets show it and enjoy it.

We should start by simply saying "Thank-You." Thank those who make our lives better, brighter and happier. A little gratitude goes a long way, especially when the recipient doesn't expect it. Say "Thank You" to the delivery person, or someone wearing a mask near you. Thank the store owners who open their doors to serve you, or

the person who brings your purchase to curbside.

I hope you will also join me in saying "Thank You" by publically emailing me the names of people or entities you would like recognize for something outstanding. Send your email nominations to SCSspirit@gmail.com. The editorial board of the LINK Magazine will pick some for special recognition in my upcoming columns. This is your chance to say "Thank You" and be part of the SCS Spirit. Here are some "Thank You's" to begin the SCS Spirit!

address problems, and for using your kind and respectful personality to put smiles on the faces of homeowners.

Molly Sher, SCS Homeowner – Molly is the perfect ambassador for SCS. When she saw a worker at 'Smith's Foods' sanitizing the carts for shoppers, Molly told the young man how much she appreciated his work and thanked him. He responded "Hey, we are all in this together!" Molly told the store manager how grateful we are for this effort. She really makes us proud to live in SCS.

**SCS Homeowners** – Thanks Dana Leong for reaching out and making food packages for local children. Thanks to Alvin Blott, for bringing some real SCS Spirit to his neighborhood by smoking up some great food and setting up a curb side dinner for all – turned lemons into lemonade.

Lots of great stuff happening around SCS. Great people bring happiness to making great things happen. Let's focus on the positives and be grateful for our blessings. More to come in future months . . . SCS Spirit!

- Staff the Information Centers.
- Perform house checks or accept requests for house checks until further notice.
- Enter any resident's property in responding to a concern for a resident.
- Actively recruit new members or perform any member training.
- Conduct its monthly general meetings.

The COVID-19 emergency protocols for Security Patrol members established before suspending operations were continued. These included: limited drivers on patrol, wearing masks, wearing gloves while checking association buildings, spraying the inside of the cars with disinfectant after each shift, and

staggered the time incoming members report for duty so that contact with members completing their shift is limited.

By this printing, the Information Centers should be open as restrictions ease and people begin to visit Sun City Summerlin.

As soon as Phase II operations are evaluated with special concern for the members, then Security Patrol will go forward with normal operations. Stay tuned.

# A VIRTUAL BAT MITZVAH

It's March 28th, 2020; One of my granddaughters was supposed to have her Bat Mitzvah today in Chicago. However, she is currently quarantined at home, and I'm here in my home at Sun City. I never thought I would experience this because I'm 74 with a host of ailments, but nevertheless, we (my wife and I) made it!

A month ago, with COVID-19 rapidly infecting our country, her parents had to postpone her Bat Mitzvah. The temple began to limit large groups and the catering hall had shut down until further notice. Airlines began cancelling flights and hotels were receiving cancellations. Thus my anticipation, for one of the most important moments of my life, would have to be put-off for another four months. Yet, through the wonders of technology, we were able to make it happen through Zoom!

Zoom is an app that allows up to one hundred people to join a conference call free of charge! I learned about the virtual wonders of Zoom through my monthly Link Editorial Board meeting. With my newfound knowledge of Zoom, it didn't come as a surprise to me when my granddaughter called to say that her Bat Mitzvah was going to be held through Zoom. Shortly after, at roughly 8 a.m. PT, around 40 people logged into the conference call. My wife and I sat in our pajamas and watched our granddaughter read the Torah at home!

This technology is simply amazing! We should all learn

about these things. Zoom conference calling is now becoming the 'new norm' during the quarantine and with social distancing. Funnily enough, it has become somewhat like the opening credits to "The Brady Bunch" theme song, with your family or friend's faces in little squares. Just a week ago, 'Saturday Night Live' filmed their season finale using Zoom.

Ironically, Zoom has been around for almost ten years; but due to the current situation we are all acclimating ourselves to using it. Without a doubt, this pandemic has brought families together. My cousins, who I used to speak with once a year, now speak every week or two. I now see my grandson three times a week and my granddaughters at least once a week.

I also use an app called "Google Duo", which is just like Skype, but easier! "Google Duo" allows all mobile users to communicate easily, no matter the brand / make of mobile phone that's being used.

All these methods of communication are FREE and easy to use! Furthermore, The Sun City Computer Club will be providing technology classes. To learn more head to www.scscc.club/ for more information. So, go call your relatives and I will continue to re-live the highlights of our 'Virtual Bat Mitzvah'. Whatever happens, from now on, I will have a smile on my face!

We all learned to read in school. We had to read to do much of our assigned work. We still have to read to keep informed and to follow directions. However, did we ever learn to love reading? To read just for the fun of it?

The Sun City Book Club is for people who love to read, and those that want to learn how to love reading. We read best sellers, classics, and books by local authors. Every month we all read a recommended book, and then meet to discuss that book (and other important topics).

Books are chosen annually, based on suggestions from the members and lists of award winning books. The lists are narrowed down, the members vote for their favorites, and the winning books are announced in November. We usually have copies of each book available for loan, and members can check out books from the Summerlin Library or purchase their own copy.

Our meetings are in the afternoon, on the second Thursday of the month, with social time from 1:30pm to 2:00pm, then book discussions until 3:30pm.

The discussion starts with information about the author. If possible, we contact the author for biographical and topical

information. If the author is local, we invite them to come and speak to us in person.

A discussion of the book follows, including suggested questions and any related topics that come up from our members.

This year has obviously been a very unusual one, and we have not had any meetings since March and missed several planned books. We are hoping to resume meetings in September. If we restart in September, we may be discussing these three books to do a little catch-up. The Reckoning, by John Grisham, A Tree Grows in Brooklyn, by Betty Smith, and Love and Other Consolation Prizes by Jamie Ford.

Other suggested 'must reads for summer' are "The Pilot's Wife," by Anita Shreve, "Where the Crawdads Sing." by Delia Owens, "A Victory for Miriam." by Sun City author Joanne Gilbert, "The Stone Diaries," by Carol Shields, "Light on Snow," by Anita Shreve, "The Secret River," by Kate Grenville, and "The Story of Arthur Trulov," by Elizabeth Berg.

Therefore, our recommendation is to read for the FUN of it. You may find a favorite author, or a favorite character.

For more information, contact Cherie: 360-244-2648 or klipsan2@gmail.com.

You "young" guys in your 50s and 60s should think about running for office in December. If you are interested, mention it to one of our officers on Thursdays. It is rewarding and you get to meet all our great members. If you want to use the gold tees, let our handicap chairman know before July 1. Don't forget to keep your spacing.

#### Golf (Men's) Niners

Even without our normal tournaments and prize money we are having good turnouts. I'm not sure when we will be able to get back to our normal tournament play. Maybe late this summer. ### POET'S CORNER with Patti Tripp

When you see a new meme, along with my rhyme, it is long overdue, and is now about time for me to give credit where credit should be, as some of the memes that I've sent aren't from me. I would like to acknowledge the ones to get credit but if you think I remember, you can simply forget it. With that being said, here's a blanket thank you to all who sent something, and allow me to do the one thing I do on my own as you see to create my rhyme here, to be the best I can be. If the pic seems familiar, and you know who you are I'm sending my thanks, though it be from afar. So if you've seen this before, pretend for a while, together we're helping some others to smile. I do have some flaws, though seldom and few -I've fessed up to my not sharing the credit with you. So, suck it up cupcake, if I don't share your name, It's not that I'm selfish - lack of memory's to blame. While the writing is mine, to the rest who contribute the memes with the emails that I daily distribute, there will soon be a day when I stop with the rhymes, and this mess will be over - it's just a matter of time! But until that day comes, just remember this, please. though you're stuck in your house,

at least you haven't got fleas!

# July 4th 1776 The Masked Ghost Writer

It was a smoky room in Philly Franklin, Jefferson, and Adams were there They'd had enough of tyranny They'd send a message loud and clear. The Thirteen colonies were represented A declaration they would adopt that day. They knew when they sent it A war of independence wasn't far away. We'll have our own government It's our right to choose. We'll take up arms against you, King George you're going to lose We hold these truths to be self-evident; All men are created equal is clear, We have certain inalienable rights And we will pursue our happiness here So ring the Liberty Bell, Let the American people assemble, Hear our declaration of independence, Let our enemies start to tremble.

# DOGDAYS

# TAKING CARE OF OUR BELOVED BY MOLLY SHER DOGS DURING THE COVID-19 PANDEMIC

"A person can learn a lot from a dog, even a loopy one like ours. Marley taught me about living each day with unbridled exuberance and joy, about seizing the moment and following your heart. He taught me to appreciate the simple things - a walk in the woods, a fresh snowfall, a nap in a shaft of winter sunlight. And as he grew old and achy, he taught me about optimism in the face of adversity.

Mostly, he taught me about friendship and selflessness and, above all else, unwavering loyalty."

John Grogan, "Marley and Me: Life and Love With the World's Worst Dog"

here's always some good that comes from troubled times. Due to COVID-19 affecting the world and the mandated sheltering-in-place, many animal shelters around the country report that adoptions have increased. Doris Day, the famous actress, singer, and animal rights activist, expressed the reason so well, "I have found that when you are deeply troubled, there are things you get from the silent devoted companionship of a dog that you can get from no other source."

Both quotes I think illustrate how much we love our pets, whether they are dogs, cats, birds, reptiles or other animals. For all animal lovers, pets are very much like children, and losing a beloved pet is just as devastating for many.

If you are like me, at this point you are probably very tired of hearing about the pandemic and what's happening with it. I don't blame you. However, an incident happened to me about a month ago which compelled me to write this article.

I was walking our dog one morning, and a very friendly, wonderfully kind gentleman was also walking his dog. He asked if it was okay for the dogs to "say hello," as long as we maintained our social distancing. I was hesitant – while his dog was very friendly and was wagging his tail as our dog was, I thought for a second that it might not be a good idea. Nevertheless, both dogs seemed eager to greet each other, and so I allowed our dog to do so. After all, socializing for humans and pets is a good thing.

The very next day I heard on the news about the possibility of pets contracting the virus, and that a dog in another state had tested positive. My "qut" had told me it was not a good idea to let

the dogs come in contact with each other, but I felt I was being overly protective, and one might even judge me a bit neurotic.

This article is intended to educate all dog owners of our community of the facts about this virus. It is not intended to frighten anyone. Knowledge, I think most of you will agree, is power. Most information has been taken from the Center for Disease Control, and can be easily found online by going to: https://www.cdc.gov/healthypets/.

#### This information has been taken verbatim from the CDC:

There is a small number of animals around the world reported to be infected with the virus that causes COVID-19, mostly after having contact with a person with COVID-19. Talk to your veterinarian if your pet gets sick or if you have any concerns about your pet's health.

#### Protect pets if you are sick

If you are sick with COVID-19 (either suspected or confirmed by a test), you should restrict contact with your pets and other animals, just like you would with people. Until we know more about this virus, people sick with COVID-19 should avoid contact with pets and other animals.

- When possible, have another member of your household care for your pets while you are sick.
- Avoid contact with your pet including, petting, snuggling, being kissed or licked, and sharing food or bedding.
- If you must care for your pet or be around animals while you are sick, wear a cloth face covering and wash your hands before and after you interact with them.

### "Petting, scratching, and cuddling a dog could be as soothing to the mind and heart as deep meditation and almost as good for the soul as prayer." - Dean Koontz

If you are sick with COVID-19 and your pet becomes sick, do not take your pet to the veterinary clinic yourself. Call your veterinarian and let them know you have been sick with COVID-19. Some veterinarians may offer telemedicine consultations or other plans for seeing sick pets. Your veterinarian can evaluate your pet and determine the next steps for your pet's treatment and care.

Stay healthy around animals

In the United States, there is no evidence that animals are playing a significant role in the spread of COVID-19. Based on the limited information available to date, the risk of animals spreading COVID-19 to people is considered to be low. However, because all animals can carry germs that can make people sick, it's always a good idea to practice healthy habits around pets and other animals.

- Wash your hands after handling animals, their food, waste, or supplies.
- Practice good pet hygiene and clean up after pets properly.
- $\buildrel \buildrel \bui$

Forgetting the virus, there are other health problems that may come up. We are all older residents here (over 55 for the most part) and many health problems may occur. It might behoove you to prepare a "to-go pet bag" so that someone else may care for your pet in an emergency, if you do live alone. What would you do if you were suddenly ill? Is there someone who could take over the care of your pet while you are recuperating?

Here are some suggestions I pulled from various websites

that might help the reader think about what could go into a

"to-go pet bag" if it was necessary:

- Identify a family member or friend who could take care of your pet in an emergency.
- ◆ Have crates, food, extra supplies, and think about what toys you might want to have the caregiver take for your pet in case of relocation to their

 Look at whatever file you might keep on your pet for records of all vaccines that are up-to-date and have copies already made in case boarding becomes necessary.

◆ Make sure that any and all medications are documented with dosages, times and how to administer them in case the person is unfamiliar with your pet; copies of current prescriptions from your vet may be very helpful as well.

home.

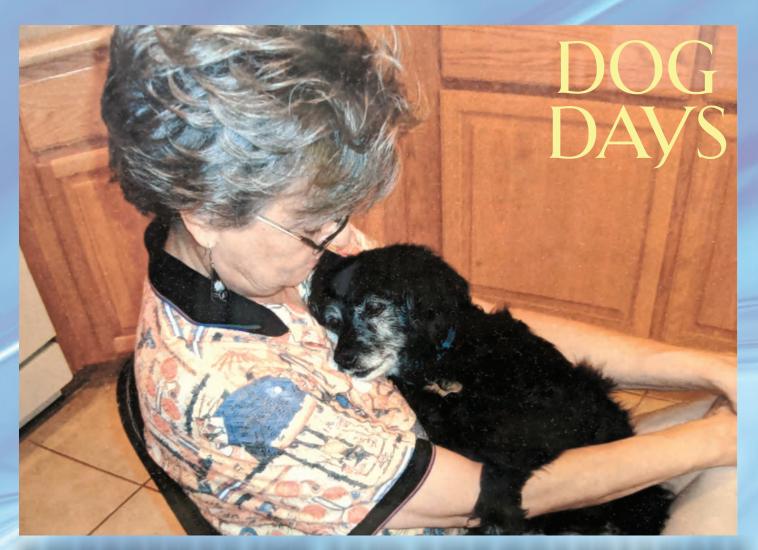

• Make sure your dog has the proper, up-to-date identification on his/her collar and/or a microchip with current information.

It is best at this time to treat pets as you would other family members – do not let pets interact with other animals or humans outside of family members.

In summary, while there is some evidence worldwide of pets coming down with COVID-19, it was usually after close contact with a human that had the virus. The risk of animals spreading COVID-19 to humans is considered to be low.

Information is evolving, and will be updated as soon as more information about the virus becomes available. But for now, use the precautions you would normally use for your family members.

We love our pets; they give us unconditional love and that deep connection with them is unique. Just doing a few things or thinking about steps that should be taken in case of any emergency is wise.

### MY SOULMATE AND MY COMPANION

ow can you love animals in general and dogs in particular and not want to have a dog share your life?

Dogs are more than dogs, they are part of your family. I call them "babies" because they are totally dependent on you for their survival. I have had two "babies" in my life that were my life. Whether you find them trotting across a putting green following people with food, or your sister brings you this precious baby in her arms so you won't be alone; they instantly become the focus of all you do.

You wake in the morning and if you are lucky, your sweet companion is laying next to you all warm and toasty. First things first, outside to do business then inside for breakfast. Of course you ask the questions like "is this the right amount of food, is this even the right food, does he like it, is it good for him". Exercise comes next, but your exercise is exercising them to be sure they stay healthy. A walk is a good thing, but how far do you walk, is the pavement too hot, is he too cold. And this is all before you have your breakfast.

Believe me, I wouldn't change either of my experiences with my precious babies for anything in the world. I was

allowed to be with my first love for over 15 years, We were soul mates (sorry guys, he understood me better than I deserve). Because of him I was able to leave an abusive relationship. I could not subject my baby to the problems any more; so I had to leave. My second angel was my companion. He comforted me during my surgery, and barked and barked til someone came to ease my pain.

How can you thank these wonderful creatures enough for all the affection, attention and companionship they give you? But alas, our times together had to end. My first from old age; and my second from my negligence. Working so many hours, a pet door would be the solution to allowing an outside adventure. This thinking brought out the worst of the animals of prey and my little guy was lost to me in my own front yard. Loved ones are always meant to be kept safe; and I did not keep him safe.

I still deal with this now 3 years later; and though I ache for a companion and a little one to love; the heartache is too strong. So remember how they depend on you not only for food and exercise; but for safety as well. Keep your little ones safe and love them as I loved mine.
